| 42   | Hawaii             | 1,439,399.00  | \$0.05                | \$76,000                       |   |

<sup>1</sup>This table excludes Washington. The state was unable to report total amount invested. It also excludes Alabama, Alaska, Massachusetts, New Hampshire, North Dakota, Rhode Island, and Wyoming as they did not fund GME through Medicaid in 2022 Medicaid GME Funding Per Capita State Comparison 2022.

<sup>2</sup>These figures account for total funds including both state and federal matching components. It should be noted that the federal medical assistance percentage (FMAP) for each state is different, indicating variation in the deliniation of state and federal funds between states with the same total dollar investment in GME.

<sup>3</sup>The investment from Georgia to match the per capita rate of other states is also represented in total funds and does not account for which of these funds are state general funds vs federal matching funds. The preliminary FY2025 FMAP is 65.84.

\*States that have not expanded Medicaid according to KFF

| Totals                         |  |               | 4025 | 3571 | 479 |

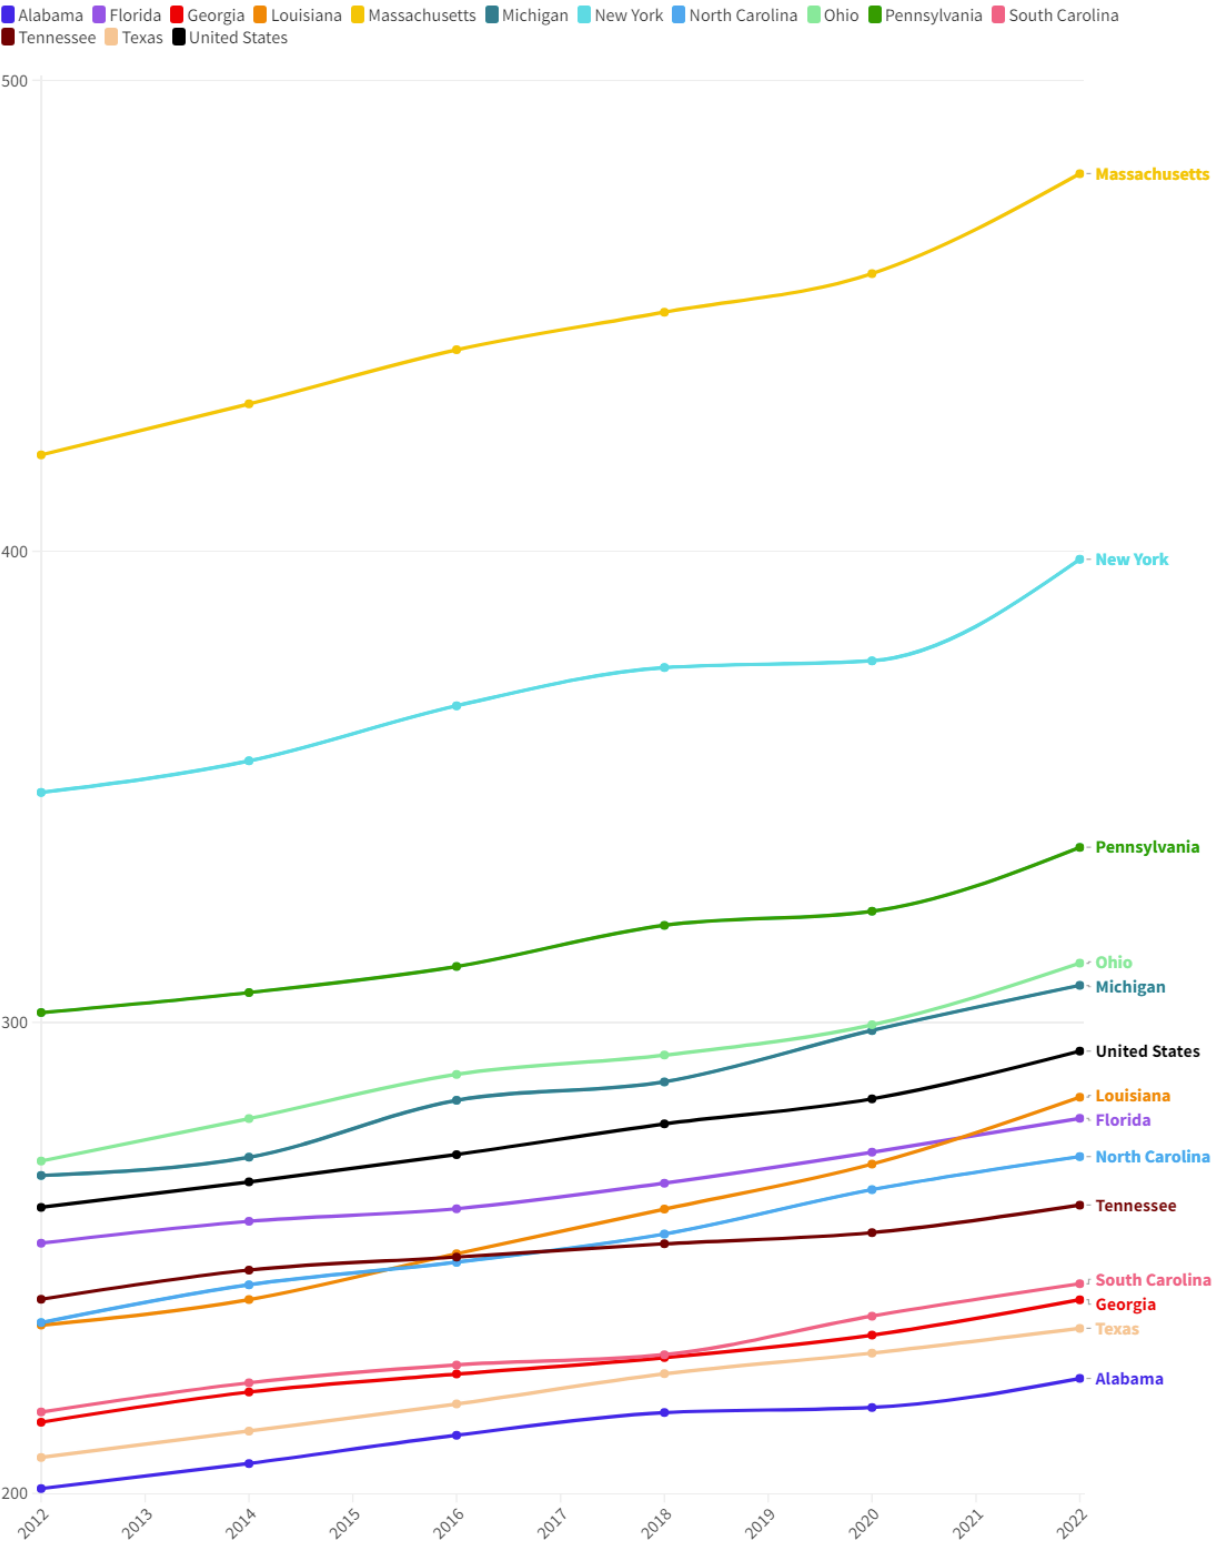

Of the 4,025 ACGME-approved GME positions, 3,571 were filled as of September 2024, leaving 479 vacant.

**Yellow highlighted** specialties are those Georgia considers core specialties: Emergency Medicine, Family Medicine, General Surgery, Internal Medicine, OBGYN, Pediatrics, and Psychiatry.

GHEHI is updating these findings for the 2025-2026 cohort of residents and fellows.
